HOW CAN WE PROTECT PUBLIC SCHOOL FUNDING?

The Impact of School Vouchers

Thursday, Sept. 8, 2022 7:00 p.m. - 8:30 p.m.

Timken High School Commons

Public funds are used for individuals who opt out of public schools. There is no oversight by local elected boards of education. The emphasis is on individual choice, not the common good. Vouchers increase segregation and shift more of the burden for school funding to local taxpayers.

The League of Women Voters supports the informed and active participation of citizens in government, advocates on behalf of governmental issues, but never supports nor endorses candidates or political parties. LWV membership is open to both men and women of all political persuasions, races, and nationalities.

The local organization was established in 1920 in Canton City Hall Chambers and is an affiliate of the LWV of Ohio and the LWV of the United States. More information is available at www.CantonLWV.org or mail@CantonLWV.org.
